Global Incubator Programme Legal Tech Canada - Toronto, Ontario

Innovate UK's Global Incubator Programme is an acceleration programme for innovative companies to work with world-leading incubators abroad. We are currently accepting applications for up to **8 innovative companies** in the **Legal Tech Sector** to join our Programme.

The Programme is delivered in partnership with the **Legal Innovation Zone (LIZ) at Toronto Metropolitan University (TMU), Toronto, Canada.**

We are looking to support **innovative companies** who are **developing innovative technologies** that are **helping to transform the legal sector.**

The technology areas include:

- Artificial Intelligence
- Data Analytics
- Automation
- Contract Management / Analysis
- Legal Research
- Discovery
- Case Management

WHO SHOULD APPLY?

This Programme is aimed at innovative legal services and technology companies that have:

A novel / innovative solution with some traction (such as efficacy data or reference customers).

A strong leadership team ready to dedicate time in Toronto at the LIZ to build relationships with advisors, investors, legal tech leaders, and decision makers.

A willingness to adapt and openness to incorporating the feedback and guidance provided by experts in our network.

An initial Canadian value proposition and a hypothesis about how to reduce cost, drive quality and increase revenue in the Canadian legal services market.

WHY THE LEGAL INNOVATION ZONE?

The Legal Innovation Zone (LIZ) is the world's first, and largest, incubator dedicated to legal technology. They incubate start-up companies from idea through international sales, with a number of very successful alumni.

Located in the heart of downtown Toronto, LIZ has supported over 170 legal tech start-ups, engaged over 700 entrepreneurs through LIZ workshops, reached 26 different countries and have a community of over 10,000 members.

LIZ supports the innovation agendas of governments (provincial and international), law firms, lawyers, legal organisations, and Canadian administrative tribunals. LIZ also works to modernise the legal system.

LIZ provides legal tech innovators with access to resources they can leverage to help grow their businesses. These include connecting with industry experts and mentors, participating in group learning sessions, becoming engaged with the LIZ community - and much more.

LIZ offers the opportunity to explore the potential in the North American market.

WHY TORONTO?

Toronto is the legal, financial and economic centre of Canada. The largest law firms known as the 'Seven Sisters' are head quartered there, as are the major banks. It is at the centre of technology innovation generally.
