# Renewable Energy with Israel Global Business Innovation Programme

## ABOUT THE PROGRAMME

The Renewable Energy Global Business Innovation Programme (GBIP) consists of a preparation phase, an in-market visit and exploiting the opportunity, with support from your innovation and growth specialists over a 12-month period. The programme will support the development of collaborations between UK businesses and Israeli partners to take advantage of future collaborative activities.

### The Benefits:

- Understand the challenges and opportunities in the Israeli renewable energy market
- Develop your network with research agencies, businesses and universities in Israel
- Improve your products and services by collaborating on finding solutions to shared challenges
- Identify new routes to market internationally

## RENEWABLE ENERGY IN ISRAEL

### The Israeli Market

Israel is home to a dynamic community of energy innovators. The renewable energy industry in Israel is growing rapidly and is attracting international players to establish research partnerships. The energy market is changing at pace and poses challenges and opportunities for innovative solutions in Israel and around the world.

### The key sector focus areas are:

- Energy systems integrating solar
- Local energy systems including storage
- Clean fuels for transport and industry including hydrogen

The programme will include a visit to [PLANETech World 2023](#), a global exhibition for climate tech innovators showcasing what Israel has to offer as a world centre for climate change technologies.

## Programme Timeline

<b>Applications Close</b>	<b>Interview Dates</b>	<b>Get to Know You Event</b>	<b>Pre-visit Briefing</b>	<b>In-market Visit</b>	<b>Wrap-up Session</b>	<b>Exploitation Workshop</b>
